WHAT TO DO

Too few people know WHAT TO DO when called upon to make funeral arrange ments. The emotional strain resulting from the death of a member of the relative or a friend makes wise and careful decision at their mem intextremely difficult

Our way to lighten that burden is to have calmly prepared in a lymce some of the arrangements-which includes the family burnd plot. It is not merbid to do this more

The Lorest Glen Memorial Park organization renders a most intimate and personal service to any now willing to consider the important matter of life.

A letter phone call or visit to our offices will receive must constrous attention.

WEDNESDAY . MAY 8 1937

The Pendulum

President Roosevelt still is far and away the most popular politi lan in the United States. He has no rivals. But it is worth noting that he hasn't chunged the law of the perdulum-which governs popularity

Congress say the observers who watch itconstantly is restites with furtive revolt against continued White House domination Apparently the pendulum has begun to swing away from the peak of Mr Roo e velts popularity

To the country at large this is evident in a stalled legislative program and mate ments by congressmen taking issue with the President This couldn't have happened in 1934 1935, 1938 and rew thought it would happen in 193;

Many have been sure however that it emilder be postponed indefinitely. It is significant that when Mr Roosevelt tackied the supreme court they sensed that it might prove to be the turning point in his steady accretion of popularity

The gutet beginning of a revolt in congrees against executive domir them though not of serious proportions and apparently not reflected by the public at large will command the serious attention of all men and women who have concluded from their observations of human nature and politics that no politicion not even Mr Roossvell could onthroll Americana forever

And That's News

The duke and the lady have rejoined each other free at last in do as they please The greatest love story of the century now moves into the crucial chapter Will the uneasy fear of millions that the mar riage may be only a disappointing climax after the moving excitement and tragedy of Ldward a abilication be justified?

In London there is nothing to see but preparations for the forthcoming coronn tion of George VI. Three is nothing to read but stories of the king queen and the little princesses. There is nothing to talk about except in whispers but the crowning of a new king and queen Yet in Monty France the man and the woman whose affection for each other caused all these things to happen are going to he married

To American newspapermen at a time like this it seems only decent to extend their sympathy to the brethien of the trade in England who must write about a parade shen they is interested only in the stury bohind the festivities

The Trouble Is-

That he down't do anything That it tries to legislate on every

That it passes a lot of bills which in

That it refuses-at least the senate does-to increase goes until the Daves

administration proves costs must be That it is taking polit at promises

About economy too a riously

That it doesn't put enough business

That it is under the thumb of a buil ness labb From these contralicious symploms it
